API overview

Dubai Real Estate CRM · Document 05 · Version 1.2 · 11 October 2026 · For stakeholders and developers · Full technical details: Swagger (api/openapi.yaml)

287	24	100%	UAE
APIs	modules	of SRS v1.2 features covered	all data stays in the UAE

What an API is, in simple words

The **API** is the CRM's "front desk". The screens on computers and phones never touch the database directly: they ask the API, and the API checks who you are and what you are allowed to do before it reads or changes anything. Outside systems (Meta ads, WhatsApp, Property Finder, Bayut, Dubizzle, the website) also hand new leads to the API.

Agent's screen / phone → API: checks login, company, permission → Database | Meta · WhatsApp · Portals · Website → API webhooks → New lead, assigned in under 1 minute

Safe
Two-factor login. Every request is checked for company, role and data scope. A user can never see another company's data.

Reliable
No double imports or double clicks: repeated requests are recognised. Incoming leads are saved first and retried automatically if anything fails.

Clear errors
When a rule stops an action, the screen shows a plain message, e.g. "This lead already exists, owned by Sara".

Modules at a glance

Session	**2**	Who is logged in, what they may do, and the search box on every screen.
Organization	**25**	Company profile, users, teams, divisions and roles. Admin switches lead assignment on/off per user and creates custom roles (Sales, Basic, HR...).
Settings	**19**	The lists and rules the company can change itself: stages, reasons, lead sources, currencies and response time.
Leads	**27**	Everything about a buyer: create, list by tab, the lead page and timeline, notes and calls, stage changes, assignment, sharing with colleagues, import from Excel, and re-enquiries.
Assignment	**5**	Rules that decide which agent gets each new lead (by project, campaign, source, language, location; round-robin).
Marketing	**11**	Ad campaigns, daily ad spend and events/roadshows, used for cost-per-lead reports.
Tasks	**5**	Calls, follow-ups and personal tasks with reminders. Completing a call records the outcome and the next action.
Meetings	**9**	Online meetings (Google Meet / Teams) and viewings, free-slot checks, and each agent's booking page settings. Double booking is blocked.
Public booking	**2**	The client-facing booking page. No login needed; protected against bots.
Messaging	**23**	WhatsApp and email conversations, templates, bulk campaigns with manager approval, and consent / opt-out.
Projects	**22**	Developers, projects, buildings and units with status and price history.
Deals	**7**	A buyer's purchase of a unit: offer → EOI → booking → sold. Updates unit status automatically.
Finance	**23**	Invoices and purchase orders (draft → approve → send), payments, refunds and commissions.
Attendance	**22**	Phone check-in/out with photo, corrections with manager approval, leave, holidays and office-hour policies.
Dashboard	**1**	Number cards and charts for each role; every number opens the leads behind it.
Reports	**7**	All reports, Excel/CSV exports (Admin only, all logged) and Meta lead reconciliation.
Integrations	**14**	Connecting Meta, portals, WhatsApp, Google, Microsoft and the general webhook; status, failures and retry.
Files	**4**	Uploading and downloading files securely (brochures, photos, invoices).
Notifications	**5**	In-app and phone notifications.
Audit	**1**	The tamper-proof log of who changed what.
Public sign-up	**6**	Our pricing page and online sign-up: a new agent or brokerage picks a plan, enters RERA / licence details, verifies email, saves a card and starts a 14-day free trial. Enterprise customers contact sales.
Subscription & billing	**15**	For the company's Admin: plan, seats, monthly or yearly, card or bank transfer, our VAT invoices, cancellation and full data export.
Owner console	**23**	Private screens for our own team only: all customer companies, income, trials, licence checks, bank transfer confirmation, plans and prices, suspend or extend.
Webhooks (inbound)	**9**	Addresses where outside systems send us data: Meta, WhatsApp, Property Finder, Bayut, Dubizzle, the general webhook, portal emails, calendars and Stripe payments.

Every feature and the APIs behind it

SRS FEATURE (V1.2)	API CALLS (IN ORDER)
Login and permissions	Cognito login → `GET /me`
Global search	`GET /search?q=`
Lead tabs, filters, saved filters, columns	`GET /leads?tab=…&…` · `GET/POST/DELETE /saved-filters`

SRS FEATURE (V1.2)	API CALLS (IN ORDER)
New lead by hand (with "already exists" warning)	`GET /leads/check-existing` → `POST /leads` (409 LEAD_EXISTS → open existing)
Leads from Meta / portals / webhook / WhatsApp	`POST /webhooks/meta` · `/webhooks/portals/{provider}` · `/webhooks/inbound/{token}` · `/webhooks/whatsapp` · `/webhooks/email-inbound` (worker creates lead or re-enquiry)
Excel / CSV import	`POST /files/uploads` → PUT file → `POST /leads/imports` (preview) → `POST /leads/imports/{id}/confirm` → `GET /leads/imports/{id}`
Re-enquiry to previous agent	Automatic in intake; visible in `GET /leads/{id}/inquiries` and `GET /leads/{id}/timeline`; agent gets a notification
Automatic assignment	Automatic on create; rules via `GET/POST/PATCH/DELETE /assignment-rules`, `PUT /assignment-rules/order`
10-minute rule → next agent → Admin	Automatic (worker); any of `POST /leads/{id}/notes`, `/calls`, `/stage`, `/messages`, `POST /tasks/{id}/complete` stops the timer; moves show in timeline
Manual assign / reassign (reason)	`POST /leads/{id}/assign` · bulk `POST /leads/bulk`
Admin: switch lead assignment on/off	`PUT /users/{id}/receives-leads` · `GET /users/{id}/workload`
Lead page and timeline	`GET /leads/{id}` · `GET /leads/{id}/timeline` · `GET /leads/{id}/inquiries`
Note, call, stage, priority, attach	`POST /leads/{id}/notes` · `/calls` · `/stage` · `/priority` · `/attachments`
Share lead (view / edit)	`GET/POST /leads/{id}/shares` · `DELETE /leads/{id}/shares/{userId}` · Shared tab `GET /leads?tab=shared`
Projects of interest	`PUT /leads/{id}/projects`
Delete / restore	`DELETE /leads/{id}` · `POST /leads/{id}/restore`
Tasks, calendar views, reminders, overdue	`GET/POST/PATCH /tasks` · `POST /tasks/{id}/complete` · `/cancel` (reminders and overdue alerts by worker → `GET /notifications`)
Meetings and viewings (Meet / Teams), no double booking	`GET /availability` → `POST /meetings` (409 AGENT_BUSY) · `PATCH /meetings/{id}` · `/cancel` · `/complete`
Client booking page	`GET/PUT /booking-pages/me` · public `GET/POST /public/booking/{slug}`
Calendar sync	`POST /integrations` (google_workspace / microsoft_365, user scope) · `POST /webhooks/calendar/{provider}`
Team: users, hierarchy, roles and permissions	`/users` · `/users/{id}/deactivate` · `/teams` · `/divisions` · `/roles` · `GET /permissions`
WhatsApp and email one-to-one	`GET /conversations` · `GET /conversations/{id}/messages` · `POST /leads/{id}/messages` · `POST /conversations/{id}/read`
Templates	`/message-templates` · `POST /message-templates/{id}/submit`
Bulk campaigns with approval	`POST /message-campaigns` → `/preview-audience` → `/test` → `/submit` → `/approve` or `/reject` → `GET /message-campaigns/{id}/report`
Consent and opt-out	`GET/POST /leads/{id}/consents` (opt-out replies recorded automatically by webhook)
Developers, projects, buildings, units	`/developers` · `/projects` · `/projects/{id}/buildings` · `/units` · `/units/{id}/attachments`
Unit status / price with history	`POST /units/{id}/status` · `GET /units/{id}/history`
Deal: offer → EOI → booking → sold	`POST /deals` · `POST /deals/{id}/stage` (409 UNIT_ALREADY_BOOKED) · `/deals/{id}/attachments`
Invoices and purchase orders	`/counterparties` · `POST /finance-documents` → `PATCH` (draft) → `/approve` → `/send` · `/cancel` · `/pdf` · `/history` · `/attachments`
Payments and refunds	`GET/POST /finance-documents/{id}/payments`
Commissions	`/commissions` · `/approve` · `/mark-paid` · `/commissions/{id}/attachments`
Attendance check-in / out with photo	`POST /files/uploads` (photo) → `POST /attendance/check-in` · `/check-out` · `GET /attendance/records`
Corrections (original kept)	`POST /attendance/records/{id}/corrections` · `GET /attendance/corrections` · `POST /attendance/corrections/{id}/review`
Leave	`/leave-requests` · `/review` · `/cancel` · `/leave-types` · `/holidays` · `/attendance-policies`
Dashboard with drill-down	`GET /dashboard?…` → each bucket's `drillDown` filters → `GET /leads?…`
Reports and exports (Admin only)	`GET /reports` · `GET /reports/{key}` · `POST /reports/{key}/exports` · `GET /exports/{id}` · export log `GET /exports`
Ad spend, events	`/campaigns` · `GET/PUT /campaigns/{id}/spend` · `/events`
Meta reconciliation	`POST /integrations/{id}/reconciliations` · `GET /reconciliations`
Integrations screen	`GET/POST /integrations` · `/test` · `/retry` · `DELETE` · `/sync-runs` · `/events` · `POST /webhook-events/{id}/retry`
General webhook setup	`POST /webhook-sources` · `PUT /webhook-sources/{id}/mapping` · `/rotate-secret`
Settings	`/settings` · `/lead-stages` · `/reasons` · `/lead-sources` · `/currencies` · `GET/PATCH /organization`
Notifications and push	`GET /notifications` · `/read` · `/read-all` · `POST/DELETE /push-devices`
Audit log	`GET /audit-logs`
Pricing page and sign-up with free trial	`GET /public/plans` → `POST /public/signup` → `/verify-email` → Stripe card → `/complete` · Enterprise: `POST /public/sales-enquiries`
Plan, seats, billing cycle, payment method	`GET /billing/subscription` · `/change-plan` · `PUT /billing/subscription/seats` · `/payment-method` · `POST /billing/card-setup`
Subscription invoices and payments	`GET /billing/invoices` · `/{id}` · `/{id}/pdf` · `POST /billing/invoices/{id}/bank-transfers` · `GET /billing/payments` · Stripe `POST /webhooks/stripe`
Payment failure → grace → read-only	Automatic (Stripe webhook + worker); visible in `GET /billing/history`; changes return 402

SRS FEATURE (V1.2)	API CALLS (IN ORDER)
Cancel and data export	`POST /billing/subscription/cancel` · `/resume` · `POST /billing/data-export`
Owner console	`GET /platform/metrics` · `/platform/tenants` · `/verify` · `/suspend` · `/extend` · `PATCH /platform/subscriptions/{id}` · `/platform/bank-transfers` → `/confirm` · `/platform/plans` · `/platform/settings` · `/platform/sales-enquiries` → `/create-company` · `/platform/audit-logs`

Messages users may see when a rule stops an action

CODE	WHEN
LEAD_EXISTS	New lead's phone/email belongs to an existing lead (re-enquiry rule)
REASON_REQUIRED	Lost/Invalid stage or reassignment without a reason
USER_NOT_RECEIVING_LEADS	Assigning to a user whose lead assignment is switched off
USER_HAS_OPEN_LEADS	Deactivating a user who still owns open leads
VERSION_CONFLICT	Someone else saved the record first
OUTCOME_REQUIRED / NEXT_ACTION_REQUIRED	Completing a call without an outcome or next action
AGENT_BUSY / SLOT_TAKEN	Meeting overlaps the agent's calendar
SLUG_TAKEN	Booking-page link name already used
OPTED_OUT	Message to a lead who opted out of that channel
TEMPLATE_REQUIRED	WhatsApp outside the 24-hour reply window needs an approved template
TEST_REQUIRED / SELF_APPROVAL	Campaign submitted without a test / creator approving their own campaign
UNIT_ALREADY_BOOKED	Unit is held by another deal
NOT_DRAFT	Editing an approved financial document
AMOUNT_EXCEEDS_BALANCE / CURRENCY_MISMATCH	Invalid payment
ALREADY_CHECKED_IN / LOCATION_REQUIRED / OUTSIDE_OFFICE_RADIUS	Attendance check-in rules
LEAVE_OVERLAP / SELF_REVIEW	Leave overlaps approved leave / approving your own request
ROLE_IN_USE	Deleting a role that users still have
FILE_TYPE_NOT_ALLOWED / FILE_TOO_LARGE	Upload rules (max 25 MB)
SUBSCRIPTION_READ_ONLY	Any change while the company is unpaid after the grace period (HTTP 402)
TENANT_SUSPENDED	Company suspended by the platform team (HTTP 403)
SEAT_LIMIT_REACHED	Adding or reactivating a user when all paid seats are used
SEATS_BELOW_ACTIVE_USERS	Reducing seats below the number of active users
PLAN_NOT_ALLOWED / PLAN_NOT_SELF_SERVICE	Plan does not fit the company type / Enterprise must go through sales
LICENCE_REQUIRED	Sign-up without trade licence + RERA ORN (brokerage) or RERA BRN (agent)
EMAIL_ALREADY_REGISTERED / CODE_INVALID / CODE_EXPIRED / EMAIL_NOT_VERIFIED / CARD_REQUIRED	Sign-up steps

All APIs by module

GET view · POST create or do · PUT set · PATCH edit · DELETE remove. "Who can use it" shows the default roles; Admin can change these and create custom roles.

Session 2 APIs

Who is logged in, what they may do, and the search box on every screen.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	`/me`	Get current user	Everyone
GET	`/search`	Global search	Everyone

Organization 25 APIs

Company profile, users, teams, divisions and roles. Admin switches lead assignment on/off per user and creates custom roles (Sales, Basic, HR...).

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	`/organization`	Get organization profile	Everyone
PATCH	`/organization`	Update organization profile	Director, Admin
GET	`/users`	List users	Director, Admin
POST	`/users`	Create user	Director, Admin
GET	`/users/{id}`	Get user	Director, Admin
PATCH	`/users/{id}`	Update user	Director, Admin
PUT	`/users/{id}/receives-leads`	Turn lead assignment on or off	Admin

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
POST	/users/{id}/deactivate	Deactivate user	Director, Admin
POST	/users/{id}/reactivate	Reactivate user	Director, Admin
GET	/roles	List roles	Director, Admin
POST	/roles	Create role	Director, Admin
PATCH	/roles/{id}	Update role	Director, Admin
DELETE	/roles/{id}	Delete role	Director, Admin
GET	/permissions	List permissions	Director, Admin
GET	/teams	List teams	Director, Admin
POST	/teams	Create team	Director, Admin
GET	/teams/{id}	Get team	Director, Admin
PATCH	/teams/{id}	Update team	Director, Admin
DELETE	/teams/{id}	Delete team	Director, Admin
GET	/divisions	List divisions	Director, Admin
POST	/divisions	Create division	Director, Admin
GET	/divisions/{id}	Get division	Director, Admin
PATCH	/divisions/{id}	Update division	Director, Admin
DELETE	/divisions/{id}	Delete division	Director, Admin
GET	/users/{id}/workload	Get user workload	Director, Admin

Settings 19 APIs

The lists and rules the company can change itself: stages, reasons, lead sources, currencies and response time.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/settings	List settings	Director, Admin
PUT	/settings/{key}	Update setting	Director, Admin
GET	/lead-stages	List lead stages	All except Finance
POST	/lead-stages	Create lead stage	Director, Admin
GET	/lead-stages/{id}	Get lead stage	All except Finance
PATCH	/lead-stages/{id}	Update lead stage	Director, Admin
DELETE	/lead-stages/{id}	Delete lead stage	Director, Admin
GET	/reasons	List reasons	All except Finance
POST	/reasons	Create reason	Director, Admin
GET	/reasons/{id}	Get reason	All except Finance
PATCH	/reasons/{id}	Update reason	Director, Admin
DELETE	/reasons/{id}	Delete reason	Director, Admin
GET	/lead-sources	List lead sources	All except Finance
POST	/lead-sources	Create lead source	Director, Admin
GET	/lead-sources/{id}	Get lead source	All except Finance
PATCH	/lead-sources/{id}	Update lead source	Director, Admin
DELETE	/lead-sources/{id}	Delete lead source	Director, Admin
GET	/currencies	List enabled currencies	Everyone
PUT	/currencies	Set enabled currencies and rates	Director, Admin

Leads 27 APIs

Everything about a buyer: create, list by tab, the lead page and timeline, notes and calls, stage changes, assignment, sharing with colleagues, import from Excel, and re-enquiries.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/leads	List leads	All except Finance
POST	/leads	Create lead	All except Finance
GET	/leads/check-existing	Check if a lead exists	All except Finance
GET	/leads/{id}	Get lead	All except Finance
PATCH	/leads/{id}	Update lead	All except Finance
DELETE	/leads/{id}	Delete lead	Director, GM, Sales Mgr, Admin
POST	/leads/{id}/restore	Restore lead	Director, GM, Sales Mgr, Admin
POST	/leads/{id}/stage	Change lead stage	All except Finance
POST	/leads/{id}/assign	Assign lead	Director, GM, Sales Mgr, Team Leader, Admin
GET	/leads/{id}/timeline	Get lead timeline	All except Finance
GET	/leads/{id}/inquiries	List lead enquiries	All except Finance

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
POST	/leads/{id}/notes	Add note	All except Finance
GET	/leads/{id}/shares	List lead shares	All except Finance
POST	/leads/{id}/shares	Share lead	All except Finance
DELETE	/leads/{id}/shares/{userId}	Remove lead share	All except Finance
PUT	/leads/{id}/projects	Set lead projects	All except Finance
GET	/leads/{id}/attachments	List lead attachments	All except Finance
POST	/leads/{id}/attachments	Attach file to lead	All except Finance
POST	/leads/bulk	Bulk update leads	Director, GM, Sales Mgr, Team Leader, Admin
POST	/leads/imports	Start lead import	Director, GM, Sales Mgr, Admin
GET	/leads/imports/{id}	Get lead import	Director, GM, Sales Mgr, Admin
POST	/leads/imports/{id}/confirm	Confirm lead import	Director, GM, Sales Mgr, Admin
GET	/saved-filters	List saved filters	Everyone
POST	/saved-filters	Create saved filter	Everyone
DELETE	/saved-filters/{id}	Delete saved filter	Everyone (own)
POST	/leads/{id}/calls	Log call	All except Finance
POST	/leads/{id}/priority	Set lead priority	All except Finance

Assignment 5 APIs

Rules that decide which agent gets each new lead (by project, campaign, source, language, location; round-robin).

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/assignment-rules	List assignment rules	Director, Admin
POST	/assignment-rules	Create assignment rule	Director, Admin
PATCH	/assignment-rules/{id}	Update assignment rule	Director, Admin
DELETE	/assignment-rules/{id}	Delete assignment rule	Director, Admin
PUT	/assignment-rules/order	Reorder assignment rules	Director, Admin

Marketing 11 APIs

Ad campaigns, daily ad spend and events/roadshows, used for cost-per-lead reports.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/campaigns	List campaigns	All except Finance
POST	/campaigns	Create campaign	Director, Admin
GET	/campaigns/{id}	Get campaign	All except Finance
PATCH	/campaigns/{id}	Update campaign	Director, Admin
GET	/campaigns/{id}/spend	List campaign spend	All except Finance
PUT	/campaigns/{id}/spend	Enter campaign spend	Director, Admin
GET	/events	List events	All except Finance
POST	/events	Create event	All except Finance
GET	/events/{id}	Get event	All except Finance
PATCH	/events/{id}	Update event	All except Finance
DELETE	/events/{id}	Delete event	All except Finance

Tasks 5 APIs

Calls, follow-ups and personal tasks with reminders. Completing a call records the outcome and the next action.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/tasks	List tasks	Everyone (own); managers for their teams
POST	/tasks	Create task	All except Finance
PATCH	/tasks/{id}	Update task	All except Finance
POST	/tasks/{id}/complete	Complete task	All except Finance
POST	/tasks/{id}/cancel	Cancel task	All except Finance

Meetings 9 APIs

Online meetings (Google Meet / Teams) and viewings, free-slot checks, and each agent's booking page settings. Double booking is blocked.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/meetings	List meetings	All except Finance
POST	/meetings	Create meeting	All except Finance
GET	/meetings/{id}	Get meeting	All except Finance
PATCH	/meetings/{id}	Reschedule meeting	All except Finance

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
POST	/meetings/{id}/cancel	Cancel meeting	All except Finance
POST	/meetings/{id}/complete	Complete meeting	All except Finance
GET	/availability	Get agent free slots	All except Finance
GET	/booking-pages/me	Get my booking page	Everyone
PUT	/booking-pages/me	Save my booking page	Everyone

Public booking 2 APIs

The client-facing booking page. No login needed; protected against bots.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/public/booking/{slug}	Get public booking page	Public / outside system
POST	/public/booking/{slug}	Book a slot	Public / outside system

Messaging 23 APIs

WhatsApp and email conversations, templates, bulk campaigns with manager approval, and consent / opt-out.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/conversations	List conversations	Director, GM, Sales Mgr, Team Leader, Agent
GET	/conversations/{id}/messages	List messages	Director, GM, Sales Mgr, Team Leader, Agent
POST	/conversations/{id}/read	Mark conversation read	Director, GM, Sales Mgr, Team Leader, Agent
POST	/leads/{id}/messages	Send message to lead	Director, GM, Sales Mgr, Team Leader, Agent
GET	/leads/{id}/consents	Get lead consent history	All except Finance
POST	/leads/{id}/consents	Record consent	All except Finance
GET	/message-templates	List message templates	Director, GM, Sales Mgr, Team Leader, Agent
POST	/message-templates	Create message template	Director, Admin
GET	/message-templates/{id}	Get message template	Director, GM, Sales Mgr, Team Leader, Agent
PATCH	/message-templates/{id}	Update message template	Director, Admin
DELETE	/message-templates/{id}	Delete message template	Director, Admin
POST	/message-templates/{id}/submit	Submit template to WhatsApp	Director, Admin
GET	/message-campaigns	List bulk campaigns	Director, GM, Sales Mgr
POST	/message-campaigns	Create bulk campaign	Director, GM, Sales Mgr
GET	/message-campaigns/{id}	Get bulk campaign	Director, GM, Sales Mgr
PATCH	/message-campaigns/{id}	Update bulk campaign	Director, GM, Sales Mgr
POST	/message-campaigns/{id}/preview-audience	Preview campaign audience	Director, GM, Sales Mgr
POST	/message-campaigns/{id}/test	Send campaign test	Director, GM, Sales Mgr
POST	/message-campaigns/{id}/submit	Submit campaign for approval	Director, GM, Sales Mgr
POST	/message-campaigns/{id}/approve	Approve campaign	Director, GM
POST	/message-campaigns/{id}/reject	Reject campaign	Director, GM
POST	/message-campaigns/{id}/cancel	Cancel campaign	Director, GM, Sales Mgr
GET	/message-campaigns/{id}/report	Get campaign report	Director, GM, Sales Mgr

Projects 22 APIs

Developers, projects, buildings and units with status and price history.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/developers	List developers	All except Finance
POST	/developers	Create developer	Director, GM, Admin
GET	/developers/{id}	Get developer	All except Finance
PATCH	/developers/{id}	Update developer	Director, GM, Admin
DELETE	/developers/{id}	Delete developer	Director, GM, Admin
GET	/projects	List projects	All except Finance
POST	/projects	Create project	Director, GM, Admin
GET	/projects/{id}	Get project	All except Finance
PATCH	/projects/{id}	Update project	Director, GM, Admin
DELETE	/projects/{id}	Delete project	Director, GM, Admin
GET	/projects/{id}/buildings	List buildings	All except Finance
POST	/projects/{id}/buildings	Create building	Director, GM, Admin

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
PATCH	/buildings/{id}	Update building	Director, GM, Admin
GET	/units	List units	All except Finance
POST	/units	Create unit	Director, GM, Admin
GET	/units/{id}	Get unit	All except Finance
PATCH	/units/{id}	Update unit details	Director, GM, Admin
POST	/units/{id}/status	Change unit status or price	Director, GM, Sales Mgr, Admin
GET	/units/{id}/history	Get unit price and status history	All except Finance
POST	/projects/{id}/attachments	Attach file to project	Director, GM, Admin
GET	/units/{id}/attachments	List unit attachments	Director, GM, Admin
POST	/units/{id}/attachments	Attach file to unit	Director, GM, Admin

Deals 7 APIs

A buyer's purchase of a unit: offer → EOI → booking → sold. Updates unit status automatically.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/deals	List deals	All except Finance
POST	/deals	Create deal	All except Finance
GET	/deals/{id}	Get deal	All except Finance
PATCH	/deals/{id}	Update deal	All except Finance
POST	/deals/{id}/stage	Change deal stage	All except Finance
GET	/deals/{id}/attachments	List deal attachments	All except Finance
POST	/deals/{id}/attachments	Attach file to deal	All except Finance

Finance 23 APIs

Invoices and purchase orders (draft → approve → send), payments, refunds and commissions.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/counterparties	List counterparties	Director, Finance
POST	/counterparties	Create counterparty	Director, Finance
GET	/counterparties/{id}	Get counterparty	Director, Finance
PATCH	/counterparties/{id}	Update counterparty	Director, Finance
GET	/finance-documents	List financial documents	Director, Finance
POST	/finance-documents	Create financial document	Director, Finance
GET	/finance-documents/{id}	Get financial document	Director, Finance
PATCH	/finance-documents/{id}	Update draft document	Director, Finance
POST	/finance-documents/{id}/approve	Approve document	Director, Finance
POST	/finance-documents/{id}/send	Send document	Director, Finance
POST	/finance-documents/{id}/cancel	Cancel document	Director, Finance
GET	/finance-documents/{id}/pdf	Download document PDF	Director, Finance
GET	/finance-documents/{id}/history	Get document history	Director, Finance
GET	/finance-documents/{id}/payments	List payments	Director, Finance
POST	/finance-documents/{id}/payments	Record payment or refund	Director, Finance
GET	/commissions	List commissions	Director, Finance
POST	/commissions	Create commission	Director, Finance
POST	/commissions/{id}/approve	Approve commission	Director, Finance
POST	/commissions/{id}/mark-paid	Mark commission paid	Director, Finance
GET	/finance-documents/{id}/attachments	List finance document attachments	Director, Finance
POST	/finance-documents/{id}/attachments	Attach file to finance document	Director, Finance
GET	/commissions/{id}/attachments	List commission attachments	Director, Finance
POST	/commissions/{id}/attachments	Attach file to commission	Director, Finance

Attendance 22 APIs

Phone check-in/out with photo, corrections with manager approval, leave, holidays and office-hour policies.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
POST	/attendance/check-in	Check in	Everyone (own data)
POST	/attendance/check-out	Check out	Everyone (own data)
GET	/attendance/records	List attendance records	All except Finance
POST	/attendance/records/{id}/corrections	Request attendance correction	Everyone (own data)
GET	/attendance/corrections	List correction requests	Director, GM, Sales Mgr, Team Leader, Admin

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
POST	/attendance/corrections/{id}/review	Review correction	Director, GM, Sales Mgr, Team Leader, Admin
GET	/leave-requests	List leave requests	All except Finance
POST	/leave-requests	Request leave	Everyone (own data)
POST	/leave-requests/{id}/review	Review leave request	Director, GM, Sales Mgr, Team Leader, Admin
POST	/leave-requests/{id}/cancel	Cancel leave request	Everyone (own data)
GET	/attendance-policies	List attendance policies	All except Finance
POST	/attendance-policies	Create attendance policy	Director, Admin
GET	/attendance-policies/{id}	Get attendance policy	All except Finance
PATCH	/attendance-policies/{id}	Update attendance policy	Director, Admin
DELETE	/attendance-policies/{id}	Delete attendance policy	Director, Admin
GET	/holidays	List holidays	All except Finance
POST	/holidays	Create holiday	Director, Admin
DELETE	/holidays/{id}	Delete holiday	Director, Admin
GET	/leave-types	List leave types	All except Finance
POST	/leave-types	Create leave type	Director, Admin
PATCH	/leave-types/{id}	Update leave type	Director, Admin
DELETE	/leave-types/{id}	Delete leave type	Director, Admin

Dashboard 1 APIs

Number cards and charts for each role; every number opens the leads behind it.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/dashboard	Get dashboard	All except Finance

Reports 7 APIs

All reports, Excel/CSV exports (Admin only, all logged) and Meta lead reconciliation.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/reports	List reports	All except Finance
GET	/reports/{key}	Run report	All except Finance
POST	/reports/{key}/exports	Export report	Admin
GET	/exports/{id}	Get export	Admin
POST	/integrations/{id}/reconciliations	Run Meta reconciliation	Director, Admin
GET	/reconciliations	List reconciliation runs	Director, Admin
GET	/exports	List export log	Director, Admin

Integrations 14 APIs

Connecting Meta, portals, WhatsApp, Google, Microsoft and the general webhook; status, failures and retry.

	ADDRESS	WHAT IT DOES	WHO CAN USE IT
GET	/integrations	List integrations	Director, Admin
POST	/integrations	Connect integration	Director, Admin
GET	/integrations/{id}	Get integration	Director, Admin
PATCH	/integrations/{id}	Update integration settings	Director, Admin
DELETE	/integrations/{id}	Disconnect integration	Director, Admin
POST	/integrations/{id}/test	Test integration	Director, Admin
